Awning Works Inc.

Visit Our New Showroom

Since 1985, owned and operated in Pinellas County by the same family, Awning Works Inc. has been the premier awning manufacturing company in the Tampa Bay area. We design, manufacture and install both custom and pre-engineered industrial, commercial and residential awnings as well as numerous custom architectural products. Our region of service is now throughout the USA and includes the Caribbean Islands. Our membership with the Industrial Fabrics Association International network offers us the latest information in product design and construction as well as a worldwide team of experts in the world of textiles.

We offer a broad product line of exterior and interior sun control products, hurricane protection and signage. We are also a certified dealer for Hunter Douglas window treatments and building products. Additionally, we are a KE Durasol provider with a full line of retractable sun control products. Our sign division can custom design and fabricate many different sign styles as well as offer Watchfire LED components. Awning Works Inc. has won national recognition and received acclaim for many of our projects throughout America, including locally at the St Petersburg Pier. We are proud to have provided our products at NAS JAX, MacDill, Parris Island and Camp

Pendleton military bases, Walt Disney World Orlando, and Universal Studios Orlando, as well as several local businesses including Eckerd College, Tampa General Hospital, Florida Hospital and St. Anthony's.

We are a family owned business that prides itself in our ability to manufacture quality products, offer superior customer service, and exceed our customers' reliability expectations. From CAD drawing design and structural engineering to manufacturing and installation we insure that we provide both quality and an on-time delivery.

Awning Works Inc. offers clients a unique opportunity to work with a family enterprise that also provides operations in General Construction Contracting through ABuilt Inc and Online Sales, Web Development and Internet Marketing through Refueled Inc.

Please visit our NEW showroom and manufacturing facility located in Clearwater, Florida, displaying our many product lines and fabric collection books of thousands of fabrics offered by the yard.

Management Team

Jeremy Schechner – Vice President jeremy@awningworksinc.com

Jeremy's diverse talent brings product designs and visions to reality through his creative CAD, graphic and web design experience. His knowledge of the latest available design concepts is combined with his understanding of required codes and standards, creating the first-rate products which have gained Awning Works Inc. its long lasting reputation.

Wendy Schechner – Vice President wendy@awningworksinc.com

Wendy's educational BA in marketing along with her entrepreneurial experience in telecommunications makes her well suited to carry out our simple but important mission "offer high quality sun control products at a reasonable cost". Wendy's marketing vision is family oriented and wholesome which aligns perfectly with our family owned business and the expectation of our customers.

Awning Works ownership, a family enterprise, is as active today in daily operations as we were in 1985 and our key personnel some of whom are family friends have been employed with us for over 18 years.

Steven A. Schechner – President steve@awningworksinc.com

Steve lends 35 years of design, manufacturing and corporate management expertise founded in a history of construction and aerospace technology career experience. He took a small, local awning company and in 28 years, has turned it into a nationally recognized sun control supplier.

Jarrett J. Schechner – Vice President js@awningworksinc.com

Certified Class A Contractor

As the first company contact with our customers, Jarrett brings 18 years of success to every project. His knowledge of the industry and hands-on experience offers each of our customers an educated product consultation. Once a project is on board, Jarrett's focus is dedicated to customer satisfaction and controlled project management. Jarrett is published in the IFAI's Specialty Fabric Review and has judged award winning awning projects.
