## Introducing Large Format Sunbrella® Embroidery.

Thanks to the revolutionary new Sunbrella® embroidery thread, Awning Works Inc. now offers a large format, embroidered design.

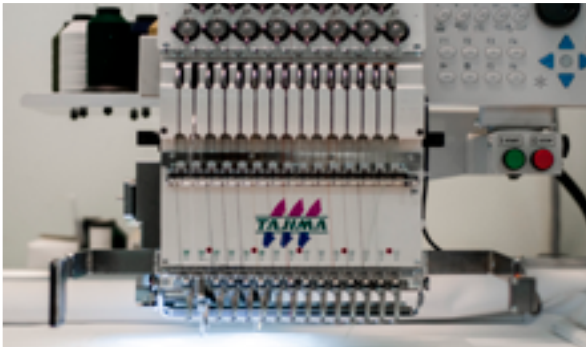

Sunbrella® embroidery thread opens up an infinite number of possibilities for customizing large designs. Awnings, banners, boat seats, and even sporting event, chair covers can now be embroidered and exposed to the sun, with the assurance of the same durability and color fastness that Sunbrella® brand fabrics are known for. Glen Raven even guarantees that Sunbrella® embroidery thread will not be damaged by exposure to the sunlight or atmospheric conditions for five years.

Worry free and easy to clean: Featuring the same easy cleaning benefits of Sunbrella® fabrics, Sunbrella® embroidery thread is easy to clean with a detergent or bleach solution.

vibrant colors

## Bringing Brand Identity to a Whole New Level.

Embroidery has long been considered a more elegant and classier way to present a brand. Sure, you've always been able to embroider something that will ultimately end up outside but when exposed to the sun, normal embroidery thread ends up deteriorating quickly, giving you the opposite brand representation that you were going for.

First impressions are everything: Now, the opportunity exists for companies to achieve a higher quality design and a more finished look for their brand with Awning Works Inc. large format Sunbrella® embroidery.
