

# CRUISE AND HOSPITALITY FURNITURE

BEYOND QUALITY AND DESIGN

TERRACE CAFÉ ONBOARD OCEANIA RIVIERA

# WELCOME

---

For more than a decade, Shores has been the preferred supplier for cruise and hotel furniture. We have set out to cater to the hospitality industry for quality furniture and fabrics and do this uniquely well. We have been working closely together with architects and designers to meet their needs for symmetry in the process of shaping the experience of interior space, theme, or storyline.

This has been a journey and we have been very inspired by the work and ideas we have encountered. Additionally, in our close cooperation with our customers we have learned what it really takes to deliver a superior quality that lasts onboard the ships and hotels.

Over the years, we have been supplying many five star hotels and more than 160 cruise ships in over 30 countries.

Shores' portfolio of outdoor, indoor, and all weather furniture has an outstanding reputation for style, workmanship, durability, and superior comfort.

Susan Sadolin

# SHORES TEAM

---

SUSAN SADOLIN

Owner

Susan Sadolin started Shores in 2007. Susan has 30 years of experience in the boat industry. First through the family business "Elvstrom Sails" - one of the world leaders in sails for sailboats. Then 20 years designing and producing sportswear and technical clothing for Yachting. In 2007, she recognized the growing demand for high quality design furniture on outdoor areas on cruise ships. It was at this time that balconies and outer decks became some of the most desired areas on the cruise ships.

Susan was the first one to bring IMO outdoor furniture to the cruise market. She has successfully solved a wide range of the challenges for furniture & upholstery on the sea where salt, sun, wear & tear sets high demands and combined this with beautiful Scandinavian design. Today Susan is still responsible for the new design and development and is based in Shores European headquarter selling both to the hotel & cruise industry.

# WHO WE ARE

---

The Shores' team consists of highly professional and qualified individuals with a combined 60 years of experience in hospitality, mainly in the cruise industry. We are dedicated to make a difference for our customers through premium performance with superior and exquisite quality.

When choosing Shores as your trusted supplier, you can be sure that your project is in good hands. We aim to be a global leader by setting the highest standards for ourselves so we can be a valuable resource for our customers. For that, we stand on three pillars: Capabilities in quality, integrity in business, and a dash of Scandinavian sparkle.

We are determined to deliver superior quality and operate in a way that, not only ensures excellent customer service, but also allows for continuous, innovative, and positive improvement and development that secures the satisfaction of our customers' guests and respect for our planet.

To Shores, happy customers are everything and we have learned as the first furniture supplier in the industry, what "works and what does not work." Following, are the measures we have taken to deliver superior and spotless quality.

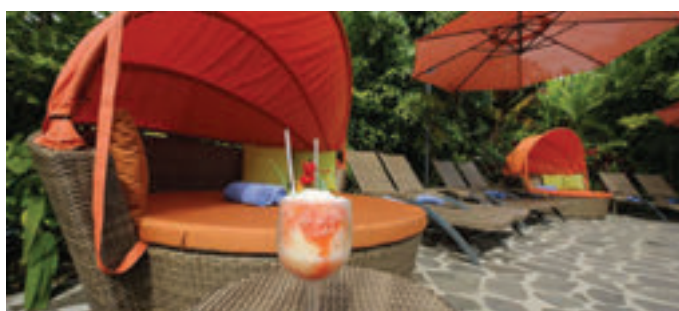

It has been a pleasure working with the Shores Team equipping Nayara Springs, Costa Rica (No. 1 World Award winning hotel 2015) with outdoor furniture.

The quality, service and design is just what we were looking for to make our property No. 1 in the world. I can highly recommend a long term relationship with Shores.

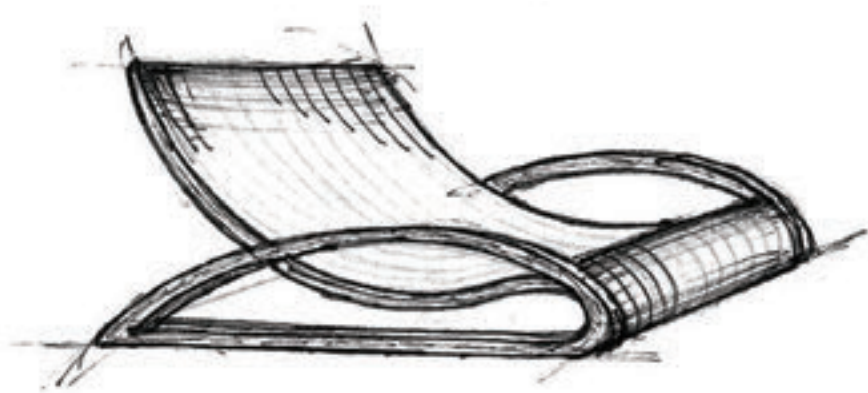

*Angelo Zaragovia, owner Nayara Springs*

"It's been a great pleasure to design and develop with the Shores team their latest collection, the results speak themselves"

*Petu Kummala  
358 Design, Miami*

# SIGNATURE FEATURES

## IMO

All our all materials are fire protected and carry the IMO certifications.

## INHERENT

All our wicker fibers are fully dyed.  
Same color inside as outside

## SALT PROTECTION

Our strong powder coating and marine grade materials protect our furniture from the effects of salt.

## ANTI BREAKAGE

Our fibers have the perfect thickness that is thin enough to bend and thick enough not to break.

## SUN PROTECTION

All surfaces are protected from the effect of exposure to the sun.

## QUICK DRY

We only use quick dry foam with open pores that can ventilate by itself and water can run through .

## COLOR FADING

The color of our materials are protected from fading in the sun and wear and tear.

## SCRATCH RESISTENT

All surfaces are treated to be less susceptible to scratches

## RUST CORROSION

Our furniture is specialised towards marine and is corrosion-free.

## MOLD, MILDEW AND BACTERIA

All materials are resistant to bacteria when treated properly.

## EASY TO CLEAN

All materials have the "teflon effect" for dirt and can easily be cleaned with a water hose.

## NO SAGGING OF THE MESH

Serge Ferrari mesh is guaranteed to prevent sagging, even after many years.

# SIGNATURE MATERIALS

## WICKER

We have developed the strongest wicker possible for the hospitality market. The wickers are carefully hand-made and woven with fibers made from toxic-free, fully-dyed recyclable polyethylene materials, and we have found the exact thickness that is strong enough to be unbreakable but thin enough to be bend around the frames.

## MESH

The Serge Ferrari range of meshes benefit from unique properties with a coating up to 15 times thicker than traditional meshes; unparalleled resistance to distortion in the diagonal direction; and an excellent consistency of the weave structure.

## PP LINE

Our PP rope product is a polypropylene yarn strand with an inner core of PE strand. The PP yarn is made with UV stabilizers and is weather resistant and easy to clean. The strand inside the yarn have a "spring back action" that will maintain a comfortable basis for the woven seat.

## FABRICS

Bella-Dura® surpasses any other performance fabrics in the marketplace today. Rather than relying on harmful coatings or finishes, Bella-Dura® performance is packed into the very fiber, resulting in remarkable textiles that are ideal for any design application.

## POLY STONE

Poly Stone granules are a polyester compound, incorporating pure alumina tri-hydrate into the particle. Poly Stone™ is UV resistant, fire resistant, chemical and stain resistant.

## ALUWOOD

Aluwood puts together wood and advantages of aluminium. ALUWOOD® marine products are type approved according to European Union Marine Equipment Directive (MED) 96/98/EC.

## FOAM

Quick Dry Foam (QDF) is a unique performance outdoor foam able to withstand years of usage without losing form or comfort and has large, open pores permitting the maximum water drainage and air circulation allowing for quick usage after getting wet or even saturated.

# SHORES SIGNATURE COLLECTION

---

We are extremely proud to present the most outstanding Shores collection ever launched. This collection distinguishes itself by being the strongest line of furniture introduced to the hospitality market as well as combining product knowledge with industry experience and elegance.

Its carefully chosen materials are from the top shelf, combined in an architectural brilliant fashion and design that makes up the very unique quality that today is known as the Shores signature quality.

With a touch of Scandinavian design and in-depth knowledge about what works and what does not work, the purpose of the Shores Signature collection is to signify astonishing beauty and immense durability in even the toughest terrains.

# WORKING ON SOMETHING AMAZING

---

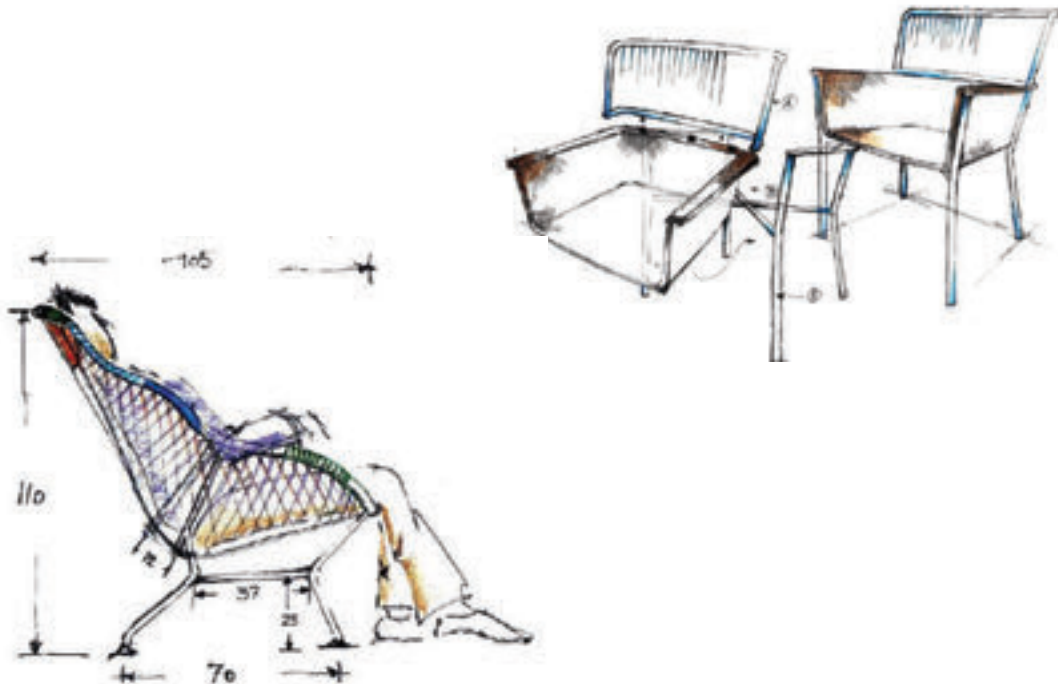

Together with the highly recognised and award winning furniture architect, Finn Østergaard, educated at The Royal Danish Academy of Fine Arts in Copenhagen and creator of the Albert Chair, Shores is currently working on bringing together the best of two worlds. The brilliance of Østergaard's drawing skills and our superior quality. Recently, Østergaard has won both gold and silver at the CIFF fair.

## STAY TUNED

Shores collections designed by Finn Østergaard:

- Buffy
- Laura
- New York
- San Lucia
- Venezia

# CUSTOM DESIGN AND A LA CARTE SERVICES

---

Shores can create and design custom furniture with a Scandinavian sensibility and deliver renderings of concept. Additionally we offer the following custom design services:

- Standard furniture upholstery
- Upholstered headboards
- Custom leather upholstery
- Custom curtains, shears and cornices
- Custom seating, couches, benches, banquets, tables and chairs

# LOW MAINTENANCE FURNITURE

---

- Simply wipe the surface with a damp cloth to clean
- Occasionally quick wash with a non-foaming mild detergent
- Clean between the weave with a nylon brush or low pressure air hose
- Our various fabrics come with individual washing instructions

# CUSHIONS

---

## SHORES 3-STEP SIGNATURE QUALITY CONTROL FOR CUSHIONS

- 1: IMO QuickDry foam inside
- 2: Highest quality fabric/vinyl
- 3: Open Serge Ferrari mesh in the bottom

Cushions and pillows are extremely important for the comfort of the cruise and hotels guests. How they are made makes a big differences We have learned what it takes to make cushions for cruise ships and hotels and the 3step process is a standard of Shores quality.

Result: Dry cushions with longer life cycle, mildew and fungus protection, lower maintenance. Own in-house upholstery and cushion production in Miami, Italy or China.

PERFECT QUALITY, MAXIMUM FLEXIBILITY  
IN DELIVERY AND EXCELLENT PRICING!

Quick Dry Foam (QDF) is a unique performance outdoor foam produced by a special process.. Reticulated foam has large, open pores permitting the maximum water drainage and air circulation allowing for quick usage after getting wet or even saturated. QDF is the first and only reticulated foam to meet IMO certifications. In addition QDF uses anti –microbial protection, which prohibits growth of common molds and fungus inside the cushions even when left outdoors for extended periods of time. QDF is the highest density foam available in the reticulated foam family, averaging 2.0 to 2.2 pounds per cubic foot, where our competitors peak at 1.8 pounds per cubic foot. Most important, because of the foam's high resiliency it is able to withstand years of usage without losing form or comfort.

Shores also offers a full line of high quality custom made pillows and cushions for any application within their area of expertise; from dining chairs and large sectionals to drapery and wall coverings. SOD also offers a variety of fixation systems for cushions allowing them to be safely secured to the furniture. Our products are perfected with the finest UV yarn and YKK zippers. And we are able to assure competitive pricing and a quick turnaround.
