

This cassette retractable drop arm window awning in a cassette is perfect for windows up to 16' wide. The spring loaded arm tension guarantees a taut fabric cover that can be dropped to a 160 degree position just short of a totally vertical application while allowing some light to still transmit in from the open sides of the awning. The sleek design of the front rail fits flush against the cassette housing that contains the fabric roller for a more complete finished and compact appearance when the unit is retracted.

| TECHNICAL               |  |
|-------------------------|--|
| Width                   | 3' - 16' (1/4" increments)                       |
